**Draft Status:** 4<sup>th</sup> overall (Red Deer Rebels)

**Times Viewed:** 10

**2009 Stats:** 33GP 20G\*\* 18A 38pts\*\* 96PIM\*

Matthew Dumba is a very well rounded hockey player. He possesses all of the attributes a player needs. Matthew is a leader on the ice and is noticeably respected by his teammates. One aspect of his leadership is in his communication. Matthew is constantly communicating with his team while on the ice. Matthew is a very smooth, fast and efficient skater, his feet never stop moving. His skating ability leads to Matthew being able to be very aggressive on offense and still be in the right position defensively. In his own zone Mathew is very responsible, and always in the right position as he reads the play exceptionally well. He uses his body very well in front of the net and along the boards in the defensive zone. Matthew also plays a very physical game, however he doesn't compromise the play just to make a hit, he sees the play that should be made and makes it. When Matthew is on the ice he goes 100% all of the time, never giving up on the play. Offensively Matthew is just as good, if not better than he is defensively. He has a hard and accurate shot that he gets through to the net consistently. He also has the ability to disguise a perfectly placed pass as a shot on net. Matthew's puck control is top notch, he's able to beat players one on one and drives the net like a power forward. The biggest thing about Matthew's game is that he makes very few mistakes, and the few mistakes he does make, he's able to recover from by using his hockey sense.
